

## Low build height for a great freedom

The ideal solution for active users with long residual limbs. It provides secure contact with the ground, as well as responsive action and ground compliance.

**Suggested for** medium and high mobility users with long residual limbs, who want a responsive, all-around foot.

**Responsive with low height**

## Key features

Split-toe

Range of motion  
20°

Increased Shock  
Absorption

## Key benefits

- Physiological and energy efficient gait
- Smooth rollover during the whole gait cycle
- High dynamic response to support an active lifestyle
- Possibility to do a wide range of activities with just one single foot
- Ground compliance and stability on all terrains
- Reduction of secondary issues thanks to a more balanced posture and symmetrical gait
- Low maintenance and lightweight
- Waterproof: resistant to fresh, salt, and chlorinated water

## Technical information

Activity Level:  K2  K3  K4

Size Range: **22-30**

Build Height: **68 mm**

Heel height: **10 mm**

Weight: **600 g** (size 26 with footshell)

## Max user weight

Size	K2 	K3	K4
22-24	100kg	88kg	77kg
25-30	165kg	147kg	130kg

## Alignment:

Socket midline should run 15-50 mm anterior to the midline of the male pyramid

## Product code example

Model	Size	Side	Rate
BSLP	25	L/R	E

Add -D for dark footshel

 Indicated for more active K2 users

Footshell and spectra sock are included
