

# OPTIGEL

TRUSTED PERFORMANCE. PREMIUM RESULTS.

THE NEW GENERATION OF ALPS GEL FOR UNPARALLELED COMFORT.

ALPS®

# OptiGel represents a next generation of gel developed for unmatched comfort, stability, and protection.

OptiGel's gentle yet durable formulation enhances the patient experience by reducing pressure, friction, and impact forces, while its compact structure provides excellent strength and stability, improving overall movement control.

## CLINICAL BENEFITS

- ✓ Provides superior comfort and skin protection
- ✓ Adapts to volume changes for a secure fit
- ✓ Improves stability and movement control
- ✓ Ensures greater durability, also for highly active users
- ✓ Minimizes pressure, friction, and impact

## EXPLORE ALL OPTIGEL PRODUCT SOLUTIONS

### ULTRASEAL GEL LINER

Integrates advanced sealing technology with the benefits of gel to provide exceptional comfort and conformity to the residual limb.

Available in three ring heights: Ultra Low, Low, High

SUSPENSION LOCKING\* CUSHION THICKNESS 3MM ACTIVITY LEVEL

### PRO-FIT LINER

Provides gentle skin contact and a secure fit around the residual limb.

SUSPENSION LOCKING\* CUSHION THICKNESS 3MM | 6MM ACTIVITY LEVEL

#### \*LOCKING STYLE: U-BAND

In combination with the U-band in the locking versions, OptiGel helps reduce pistoning without any distal-end constriction.

### REINFORCED FLEX SLEEVE

Built with an added layer of internal fabric to offer increased durability around the trim line of the user's socket.

Provides a 30° pre-flexion to ease bending and reduce bunching behind the knee.

THICKNESS 3MM ACTIVITY LEVEL

### REINFORCED STRAIGHT SLEEVE

Constructed with an extra layer of internal fabric to deliver superior durability.

Provides maximum comfort, control, and high-performance.

THICKNESS 3MM ACTIVITY LEVEL
