

ALPS EASYLINER

Alps Easyliner contains an **antioxidant** that is an effective scavenger of free radicals and hydroxyl groups.

Beneficial effects to the skin of patients have been reported.

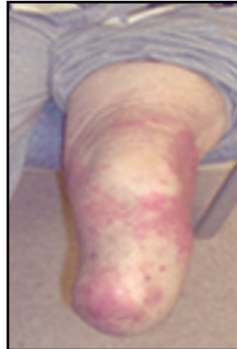

Clinical trials are under way at prominent clinics in the Midwest and the West Coast of the United States.

This story has been provided here as anecdotal evidence of the benefits that some patients have reported.

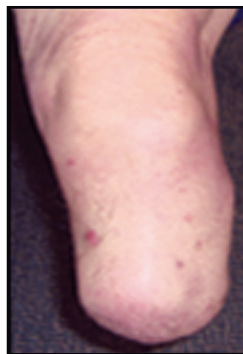

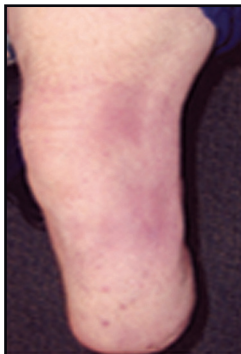

CASE HISTORY # 2

This patient has been diagnosed with Contact Dermatitis. He followed the simple cleaning procedures as recommended by the manufacturer. When that wasn't enough, he started using our product, these are the results.

CASE HISTORY #2

Prior to fitting with Alps Easyliner.

One week post fitting with Alps Easyliner.

Case history provided by:
Wayne Sadler, CPO, Kentucky (USA).
