

# SUPERIOR PERFORMANCE

SFP (HD)

## Gel Suction Suspension Sleeve

ALPS™ Superior Performance Sleeve is constructed with black fabric and either GripGel or HD Gel. The black fabric has reduced stretch to provide a secure suspension without causing shear force to the patients skin.

**i** Available in 3mm uniform and 6mm uniform thickness.

### TWO GEL OPTIONS

-  **GripGel** provides a tacky and secure fit
-  **HD Gel** provides active amputees a great degree of control
-  The Gel sticks to the patients skin without causing shear force and helps prevent the sleeve from rolling down the amputee's limb.

### BEHIND THE FABRIC

-  Black fabric offers horizontal stretch with highly reduced vertical stretch
-  Provides a secure suspension
-  Provides comfort and stability

Recommended for all activity levels.
